

NEKOXAU DIGITAL LEGACY

"Only the Patient Will Inherit This"

I. Introduction — Why NEKOXAU Exists

NEKOXAU was not created for hype. It was born out of conviction, in the body of a golden cat.

In a world flooded with FOMO and scams, NEKOXAU stands for extraeme patience, unshakable belief, and digital legacy.

I didn't create NEKOXAU to ride trends. I created it because I was tired of watching honest people get rugged, dumped on, and betrayed by meme tokens that only chase attention.

NEKOXAU is not made for flipping. It's made for endurance. It is a token for believers — not speculators.

This is a digital legacy. Not for everyone, only for those with patience.

II. Narrative

This is not just a meme. It is a legacy in the form of a cat.

\$NEKOXAU doesn't chase hype, it waits, builds, and watches. It is patience. It is conviction. It is belief.

In a world full of noise and rugpulls, \$NEKOXAU remains still golden, silent, and eternal.

III. Vision

NEKOXAU is not born from hype but from conviction and legacy. We don't chase numbers — we chase permanence. We wait, we build, we endure.

"What seems absurd may become eternal. Those who wait may inherit the world."

One cat. One throne. **NEKOXAU. Built for legacy.**

VI. Mission

- a. **Build a community of true holders**, not panic sellers, but people who keep buying when the world begins to doubt.
- b. **Make \$NEKOXAU a symbol of meaningful wealth**, not just quick profits, but a digital legacy that lives forever.
- c. **Lead not through hype or trends, but through conviction and resilience.**
- d. **Stand as a monument of patience in a world shaken by fear.**
- e. **Turn a meme into gold** — not physical gold, but inner strength: community, value, and belief that cannot be destroyed by time.
- f. **Fight back against meme scams, rugpulls, and fake tokens** built only for short-term greed.

V. Name Meaning — NEKO + XAU

- NEKO (猫): Japanese for “cat” a symbol of patience, intuition, and balance
- XAU: International code for gold, a symbol of timeless value and indestructible strength

NEKOXAU = The Golden Cat

A symbol of what’s rare in the meme world today: patience, purpose, and permanence

VI. Core Values

We Don’t Sell . We Don’t Chase Pumps . We Don’t Ride Hype. We Wait. We Build. We Believe.

NEKOXAU is not just a project. It’s a digital philosophy. We are not a FOMO crowd, we are a conviction cult.

VII. Tokenomics

- Total Supply: 21,000,000 NEKOXAU
- Network: Ethereum (ERC-20)
- Standard: OpenZeppelin ERC20 (non-mintable, fixed supply)
- Official Contract Address:
 - 0xbf824DAFA61F7c1FEc739b4914a7fF867284dcAd
- Verification: Publicly verified on Etherscan
- Compatibility: Fully supported by all ERC-20 wallets

Key characteristics:

- ✓ No minting
- ✓ No burning
- ✓ No tax
- ✓ No presale
- ✓ No owner access
- ✓ No upgrade mechanism
- ✓ Immutable and transparent

NEKOXAU is designed to be a final form token not just in supply, but in structure.

VIII. Wallet Transparency

Wallet Address	Purpose	Description	Percentage	Date
0x0768bC09bfBDEB01c77780E3676D7eB949ff8B26	Developer Wallet	Holds remaining development allocation (~20,999,750 NEKOXAU)	99.99881%	17 July 2025
https://app.uniswap.org/positions/v2/ethereum/0xCA9eFC2b4feFb09E7b30C8E6ce958d109cf060F7	Uniswap Pool Wallet	Created — Contains 250 NEKOXAU + 0.1 ETH (Uniswap v2 liquidity)	0.00119%	20 July 2025

Long-term vaults will be introduced only if needed — and always with full transparency. We build slowly, deliberately, and with discipline.

IX. Why Tokens Are Not Locked (Yet)

We previously used platforms like UNCX and had to pay token fees just to lock. It didn't feel right. Tokens meant for the community shouldn't be handed to third parties, not even for appearances. Trust isn't something you rent. It's something you show. As of now, NEKOXAU tokens are not locked. But we're open to it in the future, under fair and transparent conditions. Any locking will be:

- Community-driven
- Aligned with long-term needs
- Reassessed based on growth and context

X. Culture & Community

We don't pay influencers.

We build belief.

We don't chase virality.

We plant roots.

We don't flip for gain.

We hold for meaning.

We're not a hype crowd — we're a digital cult of patience and purpose.

If you came here for fast money, this is not for you.

But if you came to build something timeless — welcome to NEKOXAU.

XI. Roadmap — Strategic Phases

- Deploy NEKOXAU with fixed supply and no mint, Whitepaper will be updated as the project evolves
- Add liquidity gradually through monthly DCA
- Grow the community organically
- Lock the pool only after reaching 10% supply threshold
- Allocate 90% of total supply into long-term strategic assets — managed transparently and aligned with community values
- Design future vaults to support long-term holders,

- Official site: <https://nekoxau.carrd.co>

XII. Closing Statement

NEKOXAU is not the next hype coin. It's the final stand.

A meme that resists the system.

A token that survives the noise.

This is not just a token.

It's a vault of conviction, guarded by patience.

NEKOXAU. The Golden Cat.

A digital legacy — only the patient will inherit this.

XIII. What Makes NEKOXAU Different?

NEKOXAU does not follow. It does not beg for volume.

It chooses the harder road — to endure instead of explode.

What sets NEKOXAU apart:

1. No presale
2. No tax
3. No mint
4. No hidden team dump
5. No fake influencers
6. No empty hype

NEKOXAU is not for everyone.

But if you understand its value — you're ahead of the crowd.

XIV. The Vault & Long-Term Legacy

A true legacy needs a foundation.

NEKOXAU will gradually structure a long-term vault system, aligned with: -

Community treasury (non-sellable)

- Reserve assets (ETH, BTC, or stablecoins)

- Strategic holding systems for long-term holders

A vault is not a promise of price — it is a promise of purpose.

Vault mechanisms will be announced only if they align with fairness and sustainability.

XV. Contract Security & Code Transparency

NEKOXAU uses a publicly verified, audited OpenZeppelin ERC-20 standard contract.

<https://etherscan.io/address/0xbf824DAFA61F7c1FEc739b4914a7ff867284dcAd#code#L1>

Transparency isn't marketing. Transparency is code that can't be undone.
